**Junior Achievement empowers young people to own their economic success.**

**What we teach:**

**Work Readness   Financial Literacy   Entrepreneurship**

Our hands-on programs prepare students to:

- Proactively manage their finances
- Be entrepreneurial
- Develop career-readiness skills that will be recognized and valuable in a global workforce

A unique component to the success of JA is our partnership with community volunteers who teach our K-12 curriculum while sharing their own personal experiences with the students. As a result, students connect classroom learning to real-world issues and understand the value of their education.

**Volunteering for JA is a great way to get involved with your child's school!** Our volunteers tell us that volunteering is easy. You receive training and all the materials you need to be successful in the classroom. Visits typically last less than an hour, and involve five to seven visits. To volunteer [click here](#). You can also call our office at 309-736-1630 or send us an [email](#).

Eight out of ten JA high school students agree that participation in JA programs reinforces the value of an education and the importance of staying in school.
